

# Get Started With Training Kit

## 1. Power On

- Akuvox training kit has built-in power supply. You can connect power plug cord to power connector. Press power switch to turn on.

*\*Akuvox doesn't provide power plug cord.*

## 2. Setup Network

- Akuvox training kit supports Wi-Fi and wire network connections.

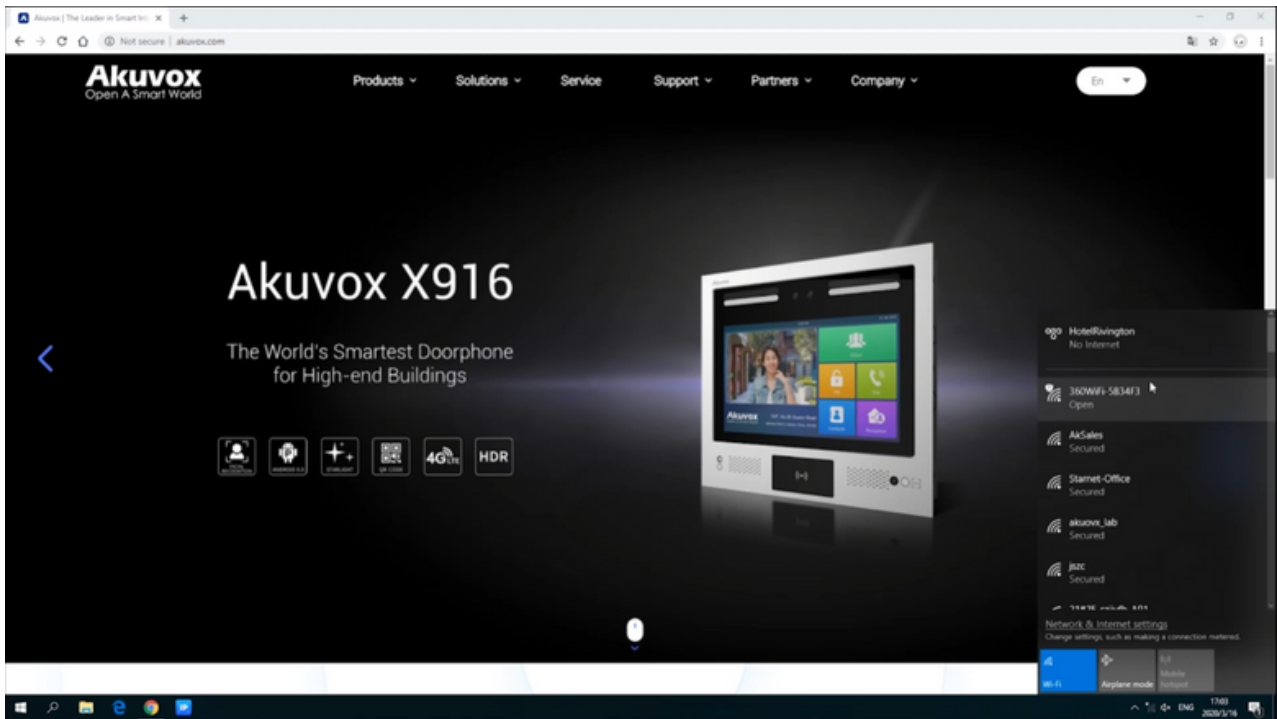

### *Wire Network Connection*

Use network cable to connect your uplink port on bottom of the training kit.

After that training kit can access network automatically.

### *Wi-Fi Network Connection*

Connect 360WiFi-\*\*\*\*\* on your Personal Computer or Mobil Devices

WiFi设置

给您的无线起个好听的名称，设置安全的密码

WiFi名称: 360WiFi-Akuvox

WiFi密码: data1234

将WiFi密码同时设为路由器管理密码

保存生效

Click Submit

Set a new name and password for the wifi network of router.  
Click Submit to save.
