

### Akuvox: How to Use AutoP Commands

If your device/s is/are on Cloud you can change and make settings on your Installer interface with AutoP Commands. Almost every settings can be done with AutoP commands.

Go to ucloud.akuvox.com/manage and log in with your installer account credential, Select the appropriate Role that your device project is under (Single-Tenant/Community Manager),

#### Single Tenant Role

•	Click on U	n User module,												
	💄 User	Name	×		c	Search							New	
	🖬 Device	Name	SIP	Room	Email	Mobile Number	Address	Family Member	Active	Landline Status	Created Time	Landline Expiration Time	Action	
	🎓 Firmware	Ryan	Family:5926000001 Personal:5926100003					1 🙇	Normal	Off	2021-08-03 18:47:19		• Z 1	Û
	🚯 Update					Lines per page	10 ~	< 1 >	Go to 1	Go 1 In	All			
	💬 Message													

- Click on 🖼 of the selected user,
- Click on 
  of the selected device, then click on
  Settings

	Settings	×
Connect Type TCP Others		
	Paste the commands here	*
Reboot	Remote Control Once AutoP Cancel	Submit

- Paste in the commands then click "Submit".
- Reboot the unit

#### Multi Tenant Role (Project Manager)

Office								
11 Community(ies)
